About Journal

Journal of Algebraic Hyperstructures and Logical Algebras (JAHLA) is an international semiannual journal published by University of Hafez and supported by the International Algebraic Hyperstructures Association and Iranian Fuzzy System Society. This journal publishes original high quality research papers and invited research and survey articles mainly in two subjects, Logical Algebras and Algebraic Hyperstructures. JAHLA is an international open access journal. There is no publication charge. JAHLA publishes 4 issues in each year.
