About Journal

Journal of Algebraic Hyperstructures and Logical Algebras (JAHLA) is an international semiannual journal published by University of Hafez and supported by the International Algebraic Hyperstructures Association and Iranian Fuzzy System Society. This journal publishes original high quality research papers and invited research and survey articles mainly in two subjects, Logical Algebras and Algebraic Hyperstructures. JAHLA is an international open access journal. There is no publication charge. JAHLA publishes 4 issues in each year.

Journal Address

Journal of Algebraic Hyperstructures and Logical Algebras

University of Hafez, P.O. Box 98135-987
Zahedan, Iran.

Tel & Fax: +98-54-33294457

E-mail: jahla@hatef.ac.ir

**JOURNAL OF ALGEBRAIC HYPERSTRUCTURES
AND LOGICAL ALGEBRAS**

Aims and Scope

The three-monthly Journal of Algebraic Hyperstructures and Logical Algebras (JAHLA) aims to provide an international forum for refereed original research works in the theory and applications of logical algebras and algebraic hyperstructures in the areas of foundations and pure mathematics. Manuscripts submitted to the JAHLA must be original unpublished works and should not be in consideration for publication elsewhere.

Instructions to Authors

The language of the journal is English. All accepted papers should also be prepared in AMS-TeX or LaTeX style and should be typed according to the style given in the journal homepage: <http://jahla.hatef.ac.ir>.

Submission of Manuscripts

Manuscripts submitted for publication should be sent electronically to this URL address: <http://jahla.hatef.ac.ir> in pdf format.

Proofs and Reprints

Page proofs will be sent to the corresponding author to be checked for type setting and editing. There are no page charges and authors will receive only complimentary electronic reprint file.

Proposing Special Issue

If you are interested in proposing a special issue, please contact the editor-in-chief at: borzooei@hatef.ac.ir

Hyperstructures Association and Iranian Fuzzy System Society*

CONTENTS

<i>X.Y. Cheng and X.L. Xin</i> State hyper BE-algebras	1
<i>Y.D. Du and X.H. Zhang</i> Hyper BZ-algebras and semihypergroups	13
<i>S.Z. Song</i> Implicative soju ideals of BCK-algebras	29
<i>M.I. Ali, M. Shabir and F. Feng</i> Two kinds of orthopair soft sets as novel approaches to granular computing based on parametrization	41
<i>M. Khan, S. Anis and S. Iqbal</i> Cubic soft matrices with applications in medical diagnosis	61
<i>M.A. Öztürk</i> Nearness d-algebras	73
<i>M. Akram</i> Spherical fuzzy K-algebras	85
<i>H. Harizavi, E.H. Roh, G Muhiuddin</i> On uni-soft p-semisimple ideals and uni-soft strong ideals in BCI-algebras	99
<i>R.A. Borzooei and M. Aaly Kologani</i> Minimal prime ideals in hoops	109
<i>Persian Translation of Abstracts</i>	121
